- Fly for miles. From your pocket. Inside the Mavic's pocket-sized remote controller is DJI's brand new OcuSync transmission technology, with a range of 4.3mi (7km) and Full HD 1080p video streaming.
- No bumps and scrapes When you know what's in front of you, you won't bump into it. The same is true of the Mavic. Using Flight Autonomy it can see obstacles as far away as 49ft (15m) in front.
- Absolute Precision Flight Autonomy technology means the Mavic can hover precisely in more environments, and automatically land almost exactly where you took off.
- Stay flying longer Why fly for 10 or 15 minutes when you can fly for up to 27? With the Mavic you can. Finely tuned control
- Use every single pixel The Mavic is the only drone of its size to carry an

integrated high-precision 3-axis mechanical camera stabilization system..Operating Temperature Range:32° to 104° F (0° to 40° C)

- Includes: DJI Mavic Pro Quadcopter [US Version], Battery, 16GB microSD, Propeller pairs x3, Remote Controller
